## WHO WE ARE?

Since the inception of Cyphion technologies It has spent years building Cutting-Edge custom software while adapting latest technology. Our firm believe is to provide value with the collaborative development with SMEs and Enterprises.

We operate with a heavy emphasis on design and user experience and are idea-driven. We aspire to develop great digital things that people love to be a part of and utilise, thus our projects should captivate your audience. Your brand and audience deserve that.

## MISSION

To be among the most trusted software companies by providing the best digital products.

## VISION

Long term commitment to our valued clients & to maintain continuous pursuit for cost effectiveness enhanced productivity of providing the best in the market.

# ABOUT US

# WHY US?

## WHY CYPHION?

### 01. Punctuality

One of our team's main virtue is that they are punctual. We aim to deliver your project before your deadlines.

### 03. Veteran Team

Our team consists of people who are very experienced in their fields. By using their experience and our hard working employees we aim to deliver exceptional results.

### 02. Quality Assurance

We provide customers quality-assured products, services and solutions and consistently enable customers to experience our commitment in creating value for each of them. By working with customers, we aim to balance opportunities and risks, quickly responding to their needs and achieving sustainable growth.

### 04. Technical Support

Our technical support teams support you on a day-to-day basis to guarantee service continuity and ensure optimal protection of your infrastructures. We pride ourselves on our technical support team's professionalism and experience.

# OUR SERVICES

We have been helping **build** brands

we provide high quality & trusted technical services

## Web Development

CYPHION has the most creative web developers. Tell us what you want to develop and we will bring it to fruition. From E-commerce to web development services.

## App Development

A mobile app can help your business to grow. Our qualified team creates innovative solutions and tailor the experience according to the needs of your business. This approach enables inventive and optimized solutions, which results in the distribution of business processes.

## Digital Marketing

Our digital marketing experts help you grow your business. We improve your business by increasing your internet presence and developing an effective marketing strategy.

## UI / UX Design

We develop UI/UX design for all rare devices, ensuring pixel-perfect images without sacrificing image quality. We assist businesses in improving their market base to support valuable and compassionate UI/UX solutions that are tailored to the specific needs of the industry.

## Augmented Reality

Cyphion develops huge spectrum of Augmented Reality technology. We innovate new goods for our clients based on their needs by using AR development.

## Artificial Intelligence

Cyphion is working on all of the four fundamentals of AI development including reactivated machine AI, limited memory AI, self-aware AI and theory of mind AI. We're focusing on developing smart operating systems that can do tasks with human intelligence.

## SAAS Product Design

Cyphion is a provider of designing, producing and deploying cloud based software, which helps to make the product that solves and breaks the barrier between the invention and innovation.

## Digital Consultancy

Cyphion provides digital consultancy to all the clients so they can get satisfied with our working approach and the value we deliver.
